Foreword

The Gloucester Crime and Disorder Reduction Partnership formed in 1998. The Partnership is a multi-agency group, comprising representatives from organisations across Gloucester. All of the partners are fully committed to working together to reduce the harmful effects of crime, disorder and anti-social behaviour.

The Partnership has now produced their third Crime Reduction Strategy. This document is about real issues affecting the city and its residents and is designed to provide a framework for activity over the next three years. Great strides have been made through the past work of the Partnership, through previous strategies, and all involved will strive to continue this towards 2008.
